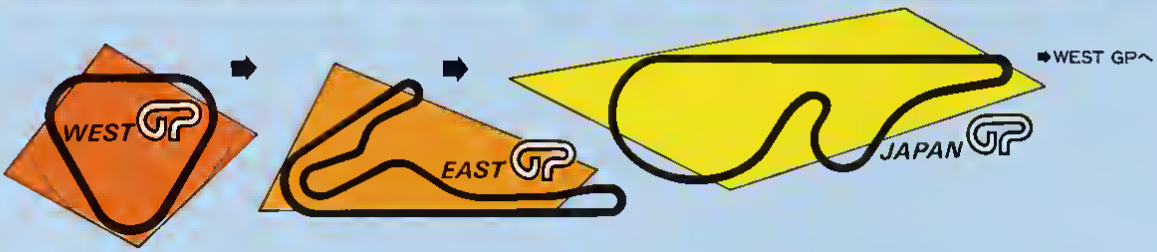
A sure bet to set your blood and adrenaline aflowin!

Crashing and hurtling off of the course, dangerous hairpin curves and breathtakingly fierce competition . . . . . dramatic racing in which one must always be on the lookout for the dangers that lurk ahead, never knowing when & where they may occur.

Guaranteed to test the very limits of your race driving skills, with the ultimate goal being the winning of the GP championship! Glaringly vivid! Colorful and dynamically filmed scenes taken on location are faithfully reproduced on the video disk.

—A game that truly captures the spirit of competitive auto racing!—



"GP WORLD" enables you to participate in the 3 GP races, each one offering a rich variety of features. The player can select the first race course, and when clearing this preliminary race, he qualifies for the same course's GP race. In the GP race you complete 2 laps of the course and can proceed to the next GP race when meeting the specified time standard while at the same time ranking 4th or better. When clearing all of the 3 races, you can then challenge NEXT YEAR'S RACE which requires an advanced skill level, and if you qualify, you again repeat the GP race process.

- Turn the steering wheel to select the first race course. It the preliminery race's lap time is 90.00 or better, then you are qualified for the same course's GP race, with your time determining your starting position. The better your lap time is when crossing the finish line, the more advantageous will be your starting position.
- In the GP races, the player is required to go 2 laps, and if he finishes each in a time not exceeding 75.00 and ranks 4th or better, he can proceed to the next GP race.
